# AlediumHR

## HealthTech Recruiting

### Healthcare IT Talent That Understands the Industry

AlediumHR connects you with a robust network of vetted healthcare IT professionals — each bringing deep technical expertise and real-world experience in healthcare environments.

From hospitals and clinics to health systems and specialty practices, our candidates are equipped to support the technologies that power modern care delivery.

### Specialized Health Tech Talent That Powers Better Care

We focus on identifying Health Tech professionals with the expertise to support IT systems that drive diagnosis, treatment, monitoring, and patient care — across both clinical and non-clinical settings.

Our candidates ensure that technology delivers accurate, efficient, and meaningful outcomes where they matter most.

## Our **HR** is Healthcare Recruitment

AlediumHR specializes in recruiting healthcare IT professionals providing software, hardware, network, mobile, cloud, development, engineering, architecture, data, and networking expertise in the United States and Canada
